The Royal Oak story celebrates Charles II's escape after the Battle of Worcester when he hid from the Roundheads in the branches of a great oak – inspiring many a pub sign, and one noble beer.

Royal Oak ale is a celebration of British country brewing. Classically amber, its rich malts and fragrant hop aromas blend into a soft, balanced complexity with a long and rewarding bitter finish.

This world-famous beer has been brewed to virtually the same recipe since 1896. Serve cool with generously cut sandwiches, grilled meats or as a truly royal partner to your cheeseboard.

Alc. 5.0% Vol.

**The hallmark of a natural beer**

**Bottle conditioning** – a secondary fermentation in the bottle – produces a naturally sparkling drink with the authentic live beer sediment. Normal handling won't disturb it but, if shaken up, just leave in a cool place for a little while to settle.

This is a world-famous English Ale, made by hand from only the finest ingredients and in the time-honoured style by skilled Craft-Brewers deep in England's countryside.
